

YOUR ADDED VALUE IN RETAIL

With the **SECOSOL® MATCHING TOOLS**, developed in collaboration with **Footprint Technologies**, you can take your consultation to the next level:

1+

EFFICIENCY

Save time and accelerate your processes – the analysis is automated and delivers clear, reliable results.

2+

PROFITABILITY

Reduce costs through standardized workflows that minimize rework and make consultations more efficient.

3+

SALES SUCCESS

Increase your sales performance by combining shoe and insole in a standardized, digitally supported consultation with consistently high quality.

4+

ADDITIONAL POTENTIAL

Leverage cross-selling opportunities by promoting additional sales and offering individually adjusted shoes.

5+

FLEXIBILITY

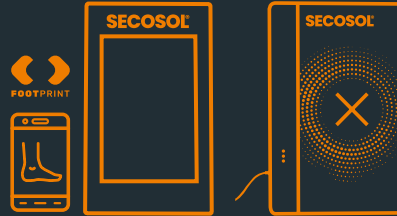

Stay flexible in sales – the system can be used in-store, in the field, or directly with your customers.

6+

PARTNERSHIP

Benefit from strong brand partnerships with more than 60 certified shoe manufacturers in the **SECOSOL®** network.

EVERYTHING FROM ONE SYSTEM

With the **SECOSOL® APP** and the **MINIPOD**, you use a fully integrated, digitally supported fitting system. **From analysis and recommendation to custom-made insoles – everything from a single source, all within one process.** This allows you to offer your customers a complete orthopedic solution that simplifies consultations, accelerates processes, and increases your business success.

SECOSOL® – A BRAND OF

SECOSOL®
THE SYSTEM

**MODERN TOOLS.
CLEAR RESULTS.**

www.secosol.de

MAKING FOOT HEALTH VISIBLE

Healthy feet are the foundation for comfort, stability, and safety in everyday work life.

Together with **Footprint Technologies**, we have developed a digital analysis system that makes **foot health** measurable and tangible.

The **SECOSOL® MATCHING TOOLS** with **APP** and **MINIPOD** combine modern technology with orthopedic expertise. They form the digital foundation of **SECOSOL® – THE SYSTEM** and enable precise analysis as well as individualized fitting with **SECOSOL® COMPLETE+** and **SECOSOL® PREMIUM**.

Whether in-store, in the workshop, or directly with customers – the tools create efficient, flexible, and digital processes, provide precise analyses, and offer a modern consultation experience that builds trust and increases sales success.

SECOSOL® APP

THE SMART WAY TO ANALYZE FEET

With the **SECOSOL® APP**, you can digitalize your analysis – simple, precise, and always ready to use. Within seconds, the **webapp** uses **AI-powered foot measurement** to determine **the correct shoe size, width, and the best-fitting safety shoe**. It also automatically recommends the appropriate **SECOSOL® COMPLETE+** (LOW/MID/HIGH).

DIGITAL. FAST. PRECISE.

EASY INTEGRATION INTO EXISTING PROCESSES

EXPERT CONSULTATION

INNOVATIVE BRAND PRESENCE

Smartphone-based foot and arch measurement with the **APP (COMPLETE+)**

SECOSOL® MINIPOD

THE ADD-ON TO THE APP

The **SECOSOL® MINIPOD** pressure measurement plate is the perfect complement to the app and expands your digital consultation with a mobile pressure analysis. It provides precise data on pressure distribution, load points, and rolling behavior – the foundation for the individual **SECOSOL® PREMIUM**, our custom-made orthopedic insole.

FLEXIBLE. PRECISE. INDIVIDUAL.

EXTENSION OF THE APP FOR PREMIUM FITTINGS

PROFESSIONAL DATA BASIS

COMPACT, MOBILE APPLICATION
